

環境領袖訓練課程 Environmental Leader Learning Opportunity, Enroll NOW!

Environmental Leader Learning Opportunity is a programme designed to train a group of university students with commitment to sustainable development. It is organized by a group of postgraduate students and ecobus, a nature-education non-profit organization, with the support of the Centre of Development and Resources for Students (CEDARS) and the sponsorship from the HKU'82 Alumni Green Fund.

In this programme, participants can have a deeper understanding of sustainable development and global warming through different workshops and field trips. The programme also includes a "Leave no trace" course which enables participants to learn to organize educational programmes. It is expected that they will apply their knowledge and skills to educate secondary and primary school students about the natural environment of Hong Kong and the global warming issues.

Date: February to April, 2010

Fee: HKD300 (a total of HKD150 can be refunded to participants with 80% of attendance)
